Healthcare Providers are Highly Satisfied with Supports and Training

Satisfaction with training and support offered by the eHealth Centre of Excellence is measured across all our programs using post-training surveys.

Healthcare Provider Satisfaction:

92% were satisfied or highly satisfied with training and support provided by the eHealth Centre of Excellence

93% would recommend training sessions to others

Quick Facts

- The eHealth Centre of Excellence has reached over **8,600** clinicians since 2017*
- We provide implementation support for virtual visits, eConsult, eReferral, EMR decision support tools, tablets, ePrescribing, and automated solutions
- Throughout the pandemic, training and support has continued, with sessions taking place virtually
- Satisfaction with training since March 2020 continues to be high, the same as before the pandemic

**as of September 2020*

The hands-on learning made this process very personable and easy to follow.

User Testimonial,
eCE Post-Training Survey

This was a rare teaching opportunity that was an excellent use of my time and moved my knowledge and skills forward significantly.

User Testimonial,
eCE Post-Training Survey

It was a great session, tailored to my learning needs and the information I learned would greatly help me in my practice.
