

# ACCURO EMR

Leave at the end  
of the day with  
your charts done

While other platforms require multiple screens for various tasks, AccuroEMR users can perform any task from any screen within a click or two. And *that* means there's time to call it a day.

## One Click to Your Best Workflows

Achieving a satisfying work/life balance can be a challenge. Completing patient charts will often take you well into the evening, affecting personal time and other commitments.

Welcome to the EMR built to support your workflows and increase the efficiencies of your practice. As the #1 single-platform EMR in Canada, AccuroEMR is connecting Providers to their patients, every day.

# FAST. EFFICIENT. ACCURATE. AFFORDABLE.

You have unique demands. When Canada's Healthcare Providers need a performance EMR, they call upon AccuroEMR to improve the health of their patients and the wellness of their business.

## ONE CLICK TO ACTION

From our Patient Chart, navigate to practically anywhere

With one click of the mouse, Accuro will lead you to where you need to be – quickly and efficiently. Accuro is designed to make your work easier while other EMRs require multiple screens for various tasks, obstructing your view and wasting your time.

### Instant access with just one click of your mouse:

- View appointment history and previous encounter notes
- Trend patient labs & vitals
- Order tests, requisitions and referrals
- Fax directly from patient charts
- Update CPP (Cumulative Patient Profile)
- View outstanding items: tasks, preventative care
- Bill the patient encounter
- Patient Engagement - launch video visits and send secure messages to patients

Write notes and prescribe drugs...

**Fast!**

With proprietary 'Clickable Words' technology, complete a note...

**In seconds!**

**Easy and fast** referral, consult, and requisition workflows

**Quick documents.** Action your patient labs and view results instantly

## Billing & Scheduling handled with ease

From Accuro's Billing screen, manage daily claims, review unsubmitted claims and errors and most importantly, take action to re-submit claims when needed. Accuro understands your workflows and provides full Accounts Receivable reporting on a per-Provider *and* group basis. Billing is tightly integrated into Accuro and as a result, no patient visit happens without a record.

### A Configurable Scheduler?

Absolutely. Accuro embeds *all* patient appointments as billable items; **Drag and drop** patients quickly into the Scheduler. Then save additional time by establishing appointment types that preload billing claims *and* include procedure codes.

**Simple solutions lead to powerful outcomes.**

## Time-saving support for Specialists and Family Practice

Using built-in collaboration with Family Practitioners, Specialists, and their associations across Canada, Accuro maximizes features that support their unique workflows. Specialists and Family Practitioners can quickly access or build forms unique to their practice and automatically convert those forms to consult letters or requisitions. And that's just the beginning. Each client will have a Practice Consultant to help set up workflows for their clinic.

*"I like that Accuro allows me to see almost everything I need from one screen. This includes medications, allergies and the patient's history. Accuro provides me with a clear overview of the patient without having to look through multiple charts and documents. With Accuro, I click less and do more. Since we have been on Accuro, we are much more efficient."*
