

What is FirstHx?

- A software that takes a patient medical history
- FirstHx uses adaptive, knowledge-based technology to obtain critical medical information from the patient prior to an appointment

Efficient Workflow

EMR and Paper based workflows are interoperable with FirstHx. This enables **clinicians** to continue to use their existing processes while improving office productivity.

Benefits

Patient

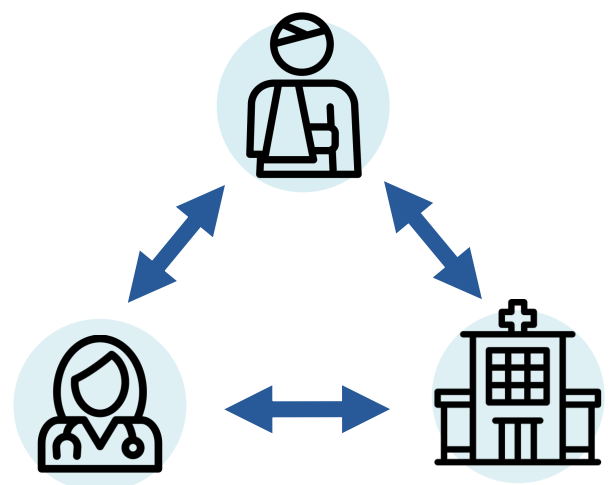

- Patient Satisfaction – 97% Approval Rating
- Improved Communication
- Enhanced Engagement

Clinician

- Time Saving
- Better Documentation
- More Efficient Patient Interactions

Health Enterprise

- Standardization of Care
- Better Data
- Improved Workflow and Team Coordination
